HONEY MARKET.

THURSDAY, Feb. 6-6 P.M. This has been the bluest kind of a day in Wall street, and we see no possibility of preventing a complete break down among the bulls. Most of the purchases are by the bears for delivery, and such is the apprehension that the receivers of stocks will not be able to fulfil their contracts, that parties having deliveries further depreciation in prices; but are getting their stocks in as fast as possible, and closing up their acounts. This drives the bears into the market, and reates a demand for the fancies, which would not ise exist The bulls have made a great deal of within the past twelve months, but they distherefore, afraid of them, and where no deits are made on time contracts, there is founds ion fer fears. So far, the bulls have met their losses romptly, but we know not how long they may have twelve months the bears have met with heavy losses, and reveral of the strongest houses in the street have had their capital largely reduced. Every loss has been punctually paid, and contracts honorably fulfilled, and it is exceedingly hard that they should e forced to make premature deliveries of stocks on ime sales, in cousequence of the existence of well grounded deubts relative to the ability of purchasers to take stocks purchased at prices much above our-rent quotations. This state of things benefits the bulls, while it is calculated to injure the bears. It sus-tains prices to a great extent, and prevents a more rapid depreciation than has thus far been realized. This is all very fortunate for holders of tancy stocks, rally. The bears, however, are now in the ascendancy, and have a prospect of not only making good all their losses, but of realizing large profits. Notwithstanding the great decline in prices, the probability is that they will yet reach a lower depth. The fancies are floating about the street and have literally no restingman, however great his experience, can tell. The market is severish, and it is impossible to tell what a day may bring forth. A fall of two, three, and four per cent a day in all the leading fancies, cannot con-tinue long without ruining hundreds; and what will be the result of the panic which has seized the minds of holders, no one can predict. No one appears to have nerve enough to purchase at present to have nerve enough to purchase at present prices, for investment or for speculation. Of the hundreds who were so anxious to buy at prices ten, fifteen, and twenty per cent above those now current, not an individual is to be seen in the market, and there is full as much anxiety to sell, as there existed six weeks since to buy. The difficulty at present is, that all are sellers, and an immense quantity of fancy stocks is pressing upon the market. This revolution we predicted, and those who have been governed by

our advice, have no cause to complain.

At the first board to day, Eris Income Bonds declined per cent; Erie Bonds, new, %; Canton Company, M. Farmers' Loan, M. Long Island, M. Stonington, Reading Railroad, 1%: Eric Railroad, 3; Harlem, At the second board Farmers' Loan fell off ¼ per cent; Long Island, ¼; Norwich and Worcester, 3. Reading Railroad advanced 1 per cent; Harlem, 134; Portsmouth Dry Dock, 14. Most of the transactions were for cash, and were confined almost entirely to the three leading railroad fancies. There were sales of Canton, after the second board, at 66. The fluctuaeyes of outsiders to the dangers of speculating in possible to succeed in any cornering combination, and affords another illustration of the folly of attempting control any particular stock. The movements in Brie, during the past few weeks, have turned out just as we auticipated. The party engaged in cornering that stock, was probably stronger than any ever form-

The argument upon the application to the Chancel. lor of New Jersey, for an injunction upon the Morris Canal Company, will be made on Saturday, the 8th inst. There is very little doubt but that the injunc tion will be granted, and the company compelled to consolidate the old stock at once. There is no way of iding it. There is the law, and it is the duty of the Chancellor to restrain all incorporated companies, in any illegal administration of their affairs. The managers of the Morris Canal Company, in permitting trans ters of the old stock, make themselves liable, notwithing which they continue to do so with impunity Until this question is disposed of, it would be well nough to let the stock alone. The first effect of conlidating a stock is to depress it.

The receipts at the office of the Assistant Treasurer f this port, to-day, amounted to \$46,030; payments, \$9.251 19; balance, \$4 540,186 98.

The fifth annual report of the Macon and Western of the business for the year ending Nov. 30, 1850. It appears that the road has been managed with great care and success. The gross earnings for the year amount to \$208,666 13, and its expenses to \$108,234 60 -leaving its not profits \$100,481 44, an amount equal to 16 percent on the present capital of the company, which is \$680,060; and equal to 10 per cent on one million and eighteen thousand five hundred dollars, the amount to which the capital is soon to be increased. This statement of facts must be most gratifying to the stockholders, especially when, by a comparison of the business of 1850, with that of 1849, the foliowing results appear, viz: increase from passengers, \$26,025 20, decrease in freights, \$15,763 96, showing a total increase of \$9,861 24. The decrease in freights was in the downward trips, and was wholly to be attributed to the deficiency in the crops of both corn and cotton. This fact is fully demonstrated, when it is shown that the falling off in the receipts of

greater proportion. The Albany and Schenectady Railroad Company have just completed its last annual report. The gross and net income for the six months ending January S1st, 1851, were as annexed :-

the latter article on the road, amounted to 12,742 bales; and the decrease in grain and four is in much

Receipts for 6 months ending Jan. 21, '51. \$113,155 41 Expenses of road. 42,097 26 Interest paid on bonds \$23,050 56
Amount contributed to reserved fund 2,500 00

Leaving balance of \$10,507 59

The surplus from the net earnings of the half year's business, to be carried to the credit of reserve fund, which will leave a balance to the credit of that fund of \$36,698 17. The receipts for the last six months are in excess of the estimate made by the directors, in their report last August, by a sum of \$4,255 71; and are also in excess of the corresponding period of the year preceding, by \$17,293 01, viz :-

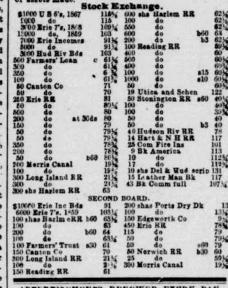

The receipts for the fiscal year commencing Feb. let, 1850, and ending January Sist, 1851, have been \$214.786 52.

The annexed statement, exhibiting the condition of the State Bank of Illinois, on the lat of Jan., 1851, is off." eial, and will be interesting to those who have long been looking for information on the subject :—

JOHN CALHOUN. Trustees.

A comparison of the movements in the leading de-

Of the the debt due of all kinds in the last report, the, robability is, that consi erable more than one half is suspended. Of the \$730,748 of discounts named in the report for Ostober, 1848, \$412,661 was under the head of suspended debt. The amount put down un-der the head of "due by other banks and bankers," is not probably worth five dollars. The "sundry stocks" is composed principally of the stock of the stocks" is composed principally of the stock of the bank, judging from the report of August, 1845, which contained an item, "stock State Bank of Illinois," \$173,300. The breken bank notes are not worth the paper they are printed on. The capital of the bank, according to the last report, was 61,564.200. There has recently been a speculative movement in the stock of this bank, in this market, and prices have advanced from ten to fifteen dollars per share. We shall not venture an opinion regarding the probable value of the stock, but shall leave it for those interested as shareholders to figure it out. We have given above all the information in our possession. In relation to the final settlement of the affairs of the Company, all we can say is, that it will yet be sometime before the of assets made.

ADVERTISEMENTS RENEWED EVERY DAY.

REMOVALS.

PEMOVAL.—BUDS6 N & ROBERTSON HAVE RE-moved from No. 134 Pearl street, to their new store, No. 189 Broadway, adjoining the Howard Hotel, where they are now opening a large and elegant stock of staple and fancy Dry Gooda, ruited to the Southern and Western trade, which they offer on the most favorable terms.
